The WALK TALL *Austin* benefit encourages the Texas community to support and get involved with our life-changing mission. Based in Austin, Texas, SpineHope has helped over 400 children, suffering from severe spinal deformities and other complex spine, orthopedic and neurological conditions, receive the operations their families could not afford. As a 501(c)3 nonprofit organization, we rely entirely on the generous support of our volunteers; donated medical equipment and supplies; financial donations from corporate sponsors and partners; and individuals donations. Come make an impact by helping precious children and teens live fuller and more pain-free lives, including 3 children coming to Austin in 2016 for surgery and treatment.
