The Scoliosis Research Society presents

Webinar for Professionals
Spinal Tumors: A Case-based Discussion
August 20, 2019 at 19:00 EDT

Learning Objectives
As a result of participating in this activity, participants should be able to:

- Appropriately work up a patient with a new lesion found in the spine.
- Recognize and address spinal deformity as part of both indications and treatment for patients with spinal tumors.
- Discuss the NOMS algorithm and SINS system as they apply to patients with metastatic disease of the spine.
- Identify common errors made in working up patients with primary tumors of the spine.

Accreditation Statement
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the sponsorship of the Scoliosis Research Society (SRS). SRS is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation
The Scoliosis Research Society (SRS) designates this internet live course for a maximum of 1 AMA PRA Category 1 Credit(s)™. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest
It is the policy of SRS to insure balance, independence, objectivity and scientific rigor in all of their educational activities. In accordance with this policy, SRS identifies conflicts of interest with instructors, content managers and other individuals who are in a position to control the content of an activity. Conflicts are resolved by SRS to ensure that all scientific research referred to, reported, or used in a Continuing Medical Education (CME) activity conforms to the generally accepted standards of experimental design, data collection and analysis.

Agenda

7:00-7:05  Welcome and Introduction
**Daniel Sciubba, MD and Joseph Schwab, MD**

7:05-7:25  Case 1: A Patient with a New C2 Lesion (C2 Chordoma)
**Matthew Goodwin, MD, PhD**
*With discussion from Daniel Sciubba, MD and Joseph Schwab, MD*
Case 2: A Patient with a Metastatic Lesion of the Spine (Thoracic Metastatic Prostate)
Matthew Goodwin, MD, PhD
With discussion from Daniel Sciubba, MD and Joseph Schwab, MD

Summary/ Review/ Discussion and Questions / Final Remarks
All Faculty

Disclosed Financial Relationships
